Long-term local relevance

Over the years, VCCorp has worked with ministries, government agencies, and public institutions to bring creative ideas to life through major events, awards, and collaborative programs. These collaborations connect businesses with public-sector stakeholders, creating opportunities to contribute to cultural, industry, and community initiatives.

For iQIYI, this experience can support a deeper understanding of Vietnam's business environment and help build meaningful local partnerships.

Regulatory Developments

- Regulatory compliance is an ongoing business responsibility.
- Prevention is more effective than incident response alone.

Market Context

Strengthen Compliance. Build Local Trust.

As iQIYI expands in Vietnam, a clear understanding of local cinema and advertising requirements is essential to sustainable growth. *Recent content removal requests highlight the need for a proactive approach to compliance and regulatory engagement.*

VCCorp proposes an initial working session with iQIYI and qualified legal specialists to review its current arrangements, identify necessary procedures, and establish a practical action plan.

This would provide a stronger foundation for local partnerships, audience trust, and long-term brand love.

A focused dialogue on iQIYI's priorities, content compliance, and sustainable growth in Vietnam.

01 **Vision & Priorities**	Understand iQIYI's vision, business priorities, and long-term direction in Vietnam.
02 **Market Challenges**	Discuss current barriers, ongoing solutions, and areas where local support could add value.
03 **Content Compliance Audit**	Propose a review of iQIYI's content against applicable Vietnamese cinema regulations, working with its existing advisers to identify titles that may require restricted visibility or exclusion in Vietnam.
04 **Regulatory Dialogue & Development**	Engage relevant authorities for guidance, clarify outstanding issues, and explore a sustainable path for iQIYI's development in Vietnam.

These are proposed discussion topics. iQIYI is welcome to raise additional priorities or concerns, which VCCorp will review and explore together to determine its potential role as a strategic advisory partner.

Proposed Immediate Action: Content Compliance Review

From Reactive Compliance to Proactive Risk Management.

01
Content Inventory
Titles accessible in Vietnam

02
Risk & Legal Review
Classification and regulatory assessment

03
Corrective Actions
Geo-restriction, edits or removal

04
Ongoing Monitoring
Pre-release controls and policy updates

iQIYI Strategic Discovery
Let's Understand iQIYI's Priorities

Understanding your challenges.
Exploring the right opportunities together.

01 **Business Priorities**	How does iQIYI currently define success in Vietnam? Are you primarily focused on user growth, paid subscriptions, brand positioning, or establishing a stronger long-term presence?
02 **Market Barriers**	Beyond marketing and audience acquisition, are there any structural, operational, or market-specific challenges that may affect iQIYI's growth plans?
03 **Content Compliance**	How are content classification and market-specific distribution decisions currently coordinated between your regional content team, legal advisers, and technical operations?
04 **Government Relations**	When your team refers to GR and PR support, are you looking more toward proactive policy intelligence, institutional engagement, corporate reputation, or support with particular challenges?
05 **Cooperation Model**	If we identify a relevant area for cooperation, who would be the appropriate stakeholders on iQIYI's side to assess the scope and make decisions on the next steps?
